### Connection Card Next Steps -

**\*Step 1 - I will spend 30 minutes** outdoors this week to focus on observing nature and praising God because of what I see.

**\*Step 2 - I will confess to God** an area where I have failed in my responsibilities to my Creator.

- When has creation made you feel a sense of awe? Does creation ever help you feel a greater connection to God?
  
- As a group, listen to the song “Where Were You?” by Ghost Ship. (Available on Spotify and YouTube.) As you listen to this re-creation of Job’s questioning of God, reflect on your own experiences with hardship. When is a time in your life that you (like Job) questioned God’s actions? Has God ever humbled you (like Job) by revealing how little you actually know? Describe that situation.
  
- Read Romans 1:18-23. What’s an example of people who think they are wise actually acting like fools (vs. 21-22)? How can we keep ourselves from winding up in this condition?
